DEPARTMENT OF DEFENSE EDUCATION ACTIVITY

Game On! Math Night

E.A. White Elementary is excited to announce "Game On! Math Night," a special event designed to engage students and their families in fun and educational math activities. This event will take place on Thursday, February 27, from 4:30 to 5:30 p.m. and is open to all UPK-5th grade students and their families.

"Game On! Math Night" aims to foster a love for math through interactive games and activities that make learning enjoyable for everyone. Students must be accompanied by their parents to ensure a collaborative and supportive environment.

Families are asked to enter the school through the Lion Entrance, located by the Kindergarten playground. We look forward to seeing our young lions and their families come together for an evening of math fun and learning!
